Add route
spoke1rt
A user defined route (UDR) is a static route that overrides Azure's default system routes, or adds a route to a subnet's route table. Learn more
Route name *
spoke1-rt
Destination type *
IP Addresses
Destination IP addresses/CIDR ranges *
0.0.0.0/0
Next hop type *
Virtual appliance
Next hop address *
10.0.0.4
Ensure you have IP forwarding enabled on your virtual appliance. You can enable this by navigating to the respective network interface's IP address settings.
